

## DOUBLE ELECTRIC BOILING RING

### GENERAL SAFETY

For information and advice on the suitability and safety of this type of equipment please contact Jaspers Hire.

This equipment should only be used by a competent and responsible adult who has read and understood these instructions.

Keep all children, animals and bystanders away from the work area.

Ensure that the equipment is sitting level and the floor of the work area is free from trip hazards and nonslip.

Never use the equipment if you are ill, tired or under the influence of alcohol or drugs.

Never operate electrical switches with wet hands. Always switch off and unplug the equipment from the power supply before moving or cleaning.

Check the equipment before use and report any damage to Jaspers Hire.

### REMOVE ALL PACKAGING BEFORE USE.

There is a risk of injury if you do not follow the instructions printed in this guide.

### ELECTRICAL SAFETY

The equipment is designed to plug directly into a standard 240volt, 13amp socket. Make sure the equipment and power socket are switched off before plugging into the power supply.

If the equipment fails to operate or the power cable or plug becomes damaged, contact Jaspers Hire. Do not try to repair it yourself.

Keep the power cable out of harm's way. Extension leads should be fully unwound, never run them through water, over sharp objects or where they may be a trip hazard.

Use a suitable RCD (Residual Current Operated Device) to reduce the risk of electric shock.

**IMPORTANT: THIS EQUIPMENT REQUIRES A CONTINUOUS SUPPLY OF 13AMPS TO OPERATE CORRECTLY.**

**IF THIS EQUIPMENT IS NOT REACHING TEMPERATURE YOU MAY NOT HAVE ENOUGH AMPS.**

### DOUBLE ELECTRIC BOILING RING OPERATING GUIDE

#### GENERAL USE

Green light on - power to unit.

#### OPERATION

1. Switch on the mains supply and the green neon will illuminate.
2. Adjust the temperature to the desired level by means of the control knob.
3. Each plate incorporates a protection device that automatically reduces the power when the pan is removed or if a pan boils dry.

#### CLEANING

1. Before cleaning the equipment, isolate it from the power supply and allow it to cool to a safe working temperature.
2. Clean units regularly with hot water and detergent, do not use abrasive or chlorine based cleaners on stainless steel. Take care to avoid wetting electrical components. Do not use a water jet.
